

# Mahdi Salek

## Frontend Developer | Vue.js | Nuxt.js

Senior Frontend Developer with 7+ years of experience building and maintaining modern web applications using Vue.js, Nuxt.js, TypeScript, and related technologies. Experienced in developing scalable SaaS and ERP platforms, improving frontend architecture, implementing SSR solutions, and collaborating with international teams. Strong background in product thinking, project coordination, and delivering high-quality user experiences in startup and enterprise environments.

### EXPERIENCES

#### WEBBist AB, Stockholm, Sweden

##### *Senior Frontend Developer*

Nov 2023 – Present

- Led the complete frontend modernization of an ERP platform used by industrial companies across Sweden.
- Rebuilt the application using Vue 3, Nuxt 3, TypeScript, Pinia, and Vuetify, significantly improving maintainability and scalability.
- Implemented Server-Side Rendering (SSR), improving initial page load performance by approximately 40%.
- Reduced frontend code complexity by an estimated 70% through architectural refactoring and reusable component design.
- Established development standards, reusable UI patterns, and frontend best practices that accelerated feature delivery and improved code quality.
- Collaborated closely with product and backend teams to deliver business-critical functionality for a large user base.

#### Procycons, Frankfurt, Germany

##### *Frontend Developer*

Feb 2023 – Jul 2023

- Contributed to the development of the MVP of a sustainability platform focused on carbon footprint assessment and environmental impact reporting.
- Built core frontend features and reusable components to support rapid product validation and early-stage customer onboarding.
- Worked directly with stakeholders to transform business requirements into scalable user-facing solutions.
- Integrated REST APIs and implemented responsive interfaces using modern Vue.js development practices.

#### Freelance Frontend Developer, Remote

2018 – 2023

- Delivered more than 10 web application projects for startups and businesses across multiple industries.
- Developed maintainable frontend solutions using Vue.js ecosystem technologies.
- Built reusable UI components, integrated APIs, and collaborated with multidisciplinary teams in agile environments.
